#### TODAY'S MARKET COMMENTARY

The equity indices of DSE rebounded, shrugging off selling pressure seen in the previous session as investors indulged in bargain hunting given the positive nod from the regulator regarding the stabilization fund. DSEX, the key index of the Dhaka bourse, charged up by 0.35%, or 56 points, to close at 7,197 points on the session today. Gains in the benchmark indices were led by considerable price appreciation of BEXIMCO and BXPHARMA stocks while the financial institution sector also contributed to the index to ascend the gain further. Besides, the total turnover has advanced slightly by 0.35% and stood at BDT 21.04bn. On the sectoral front, financial institutions (18.93%), Pharma & Chemical (10.88%), and Engineering (9.51%) issues were in most demand today. Most of the sectors observed winning performance, out of which Jute (4.3%), Miscellaneous (3.2%), and Paper (3.0%) have exerted the most positive returns while Engineering (-2.3%), General Insurance (-1.3%), and Bank (-0.1%) observed the most corrections on the bourse today. Out of the 375 issues traded, 167 advanced, 153 declined, and 55 remained unchanged.

The port city bourse, CSE, also settled in green terrain. The selected indices (CSCX) and All Share Price Index (CASPI) advanced by 85.6 points and 144.0 points respectively.
